Summary of Antitrust Policy and Requirements

Policy

This AGC chapter will conduct its affairs in strict compliance with the antitrust laws. No AGC activities shall create even the appearance of a violation of the letter or spirit of the antitrust laws.

DO

Ensure that no chapter pronouncements or activities could be misconstrued as facilitating, condoning or calling for concerted action in violation of the antitrust laws.

Conduct all chapter business only at meetings of the association where agendas have been approved in advance.

Follow membership criteria carefully and consult counsel before expelling any member for anything other than a failure to pay dues.

Follow appropriate procedures for establishing industry standards.

Consult legal counsel regarding specific situations that may have antitrust implications and, in particular, before:

- Denying a non-member request for access to chapter benefits or establishing non-member fees; or
- Undertaking industry self-regulation or improvement activities that raise potential antitrust concerns.

DON'T

Have any discussions or agreements regarding:

- prices, discounts, or terms or conditions of sale;
- profits, profit margins or cost data for individual firms or projects;
- market shares, or sale territories or markets;
- allocation of customers or territories; selection, rejection or termination of customers or suppliers;
- restricting the territory or markets in which a company may resell products;
- restricting customers to whom a company may sell;
- bidding or refraining from bidding;
- qualification or disqualification of bidders for specific contracts; or any matter which is not consistent with the proposition that each AGC member must exercise its independent business judgment in pricing its services and products, in dealing with its customers and suppliers, and in choosing the markets in which it will compete.

Attempt to affect the outcome of any specific competition, award or type of award.

Resolution on Antitrust Compliance and Training

RESOLVED, that Wyoming Contractors Association (hereinafter "AGC Chapter") does and shall continue to promote full and open competition in the construction industry:

FURTHER RESOLVED, that this AGC Chapter hereby commits to conduct its affairs in strict compliance with the antitrust laws and to avoid even the appearance of a violation of the letter or spirit of the antitrust laws. Pursuant to this policy:

1. This AGC Chapter shall use its best efforts to promote full and open competition among qualified construction contractors and subcontractors.
2. This AGC Chapter shall use its best efforts to promote full and open competition among qualified suppliers and service providers to the construction industry.
3. This AGC Chapter shall provide its products and services to both members and non-members on a fair basis that reasonable reflects any difference in their contributions to the cost of providing such products and services.
4. This AGC Chapter shall not authorize, condone or provide opportunities for any activity that would unnecessarily inhibit, restrain or weaken competitive conditions in the construction industry.
5. This AGC Chapter shall not authorize, condone or provide opportunities for any anti-competitive activity that would violate federal or state antitrust laws.
6. This AGC Chapter shall not combine with any other entity or with any person in any effort to impose unreasonable restraints on trade in the construction industry.

FURTHER RESOLVED, that the professional manager of this AGC Chapter be, and hereby is, authorized and directed to provide for the following:

1. The distribution of an antitrust compliance manual to all officers, directors and committee members of this chapter, and to all staff; and
2. The periodic training of all officers, directors and committee members of this chapter, and of all staff, on this chapter's policy of full compliance with all federal and state antitrust laws and the steps necessary to ensure such compliance.
